

# NAVIGATOR™

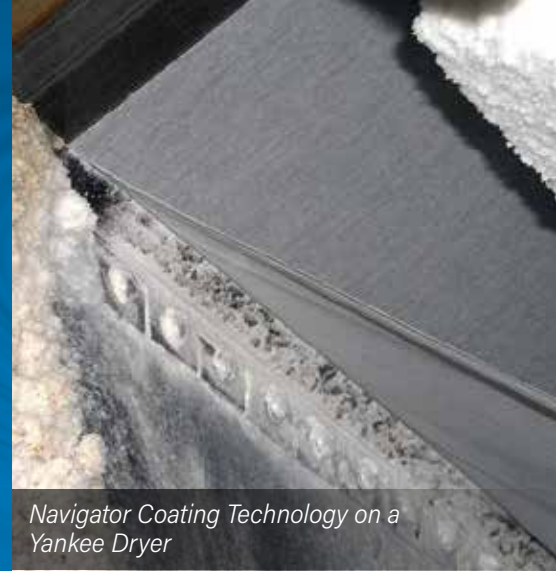

Yankee Coating & Release

**NALCO** Water  
An Ecolab Company

Nalco Water's Navigator™ Coating & Release Platform delivers superior process and product performance for today's tissuemaker:

- Optimized machine productivity
- Improved end-product performance
- Expanded operating window and flexibility

Navigator Coating Technology on a Yankee Dryer

## Program Benefits

### MACHINE PRODUCTIVITY

- Increased adhesion and speed
- Reduction in breaks
- Extended blade life
- Improved dryer protection

### PRODUCT PERFORMANCE

- Improved crepe structure
- Increased softness
- Reduced CD and MD variability
- Accelerated quality recovery after blade changes

### PROGRAM FLEXIBILITY

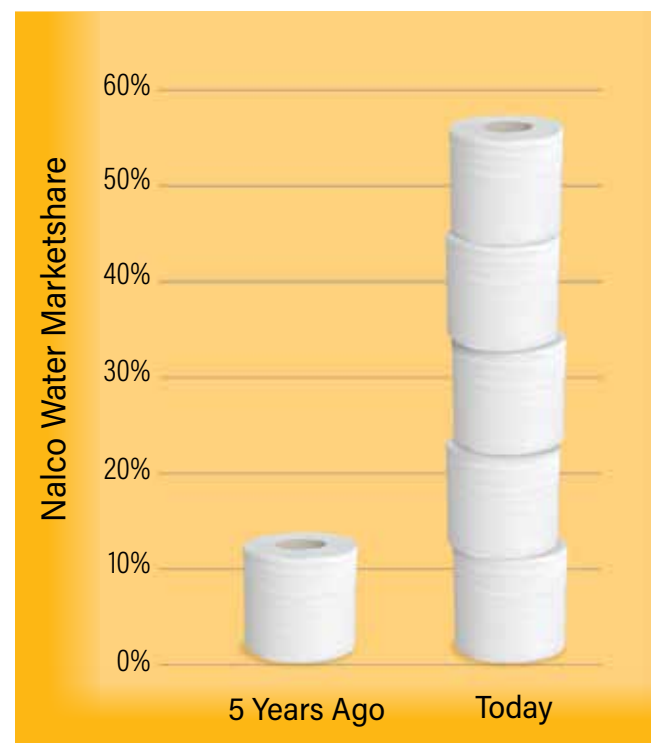

- Proven in all tissuemaking platforms
  - Conventional
  - Hybrid
  - TAD
- Accommodating to all grade environments

## Creating Value in the Market

Nalco Water's Navigator Technology has helped many tissuemakers accomplish what matters most to them:

- Higher Production
- Higher Quality
- Lower Total Cost

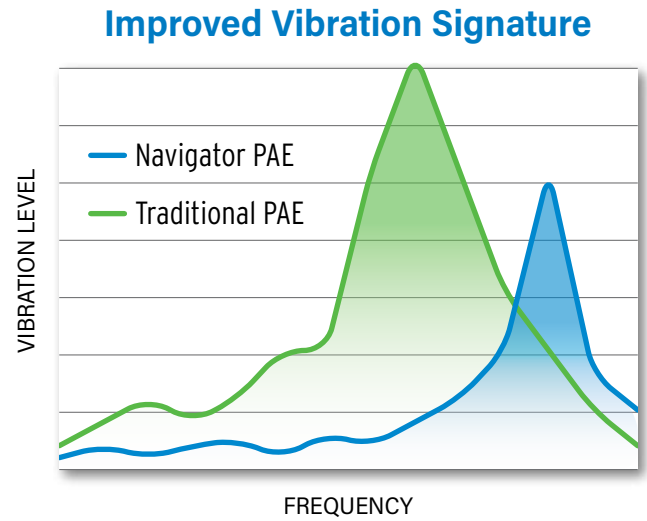

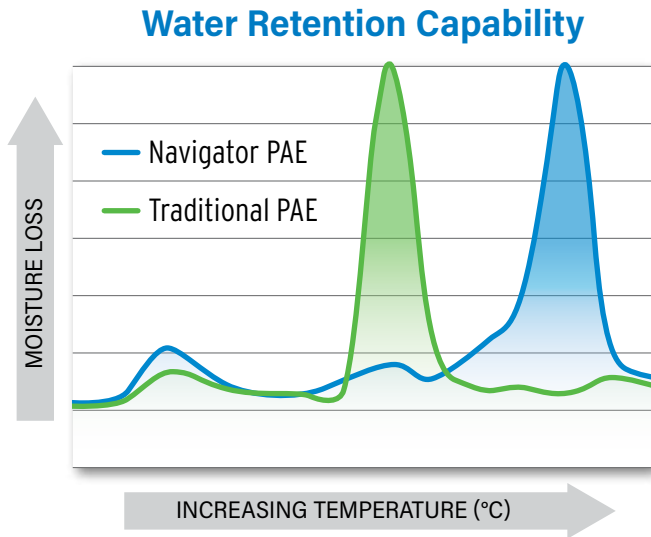

### NA Structured Coating Market

\* Market represents all In-Flow TAD and Hybrid Assets

# How Navigator Compares to Existing Offerings

- Comprehensive offering of adhesive, modifier and release technologies
- Unique PAE construction provides the optimal balance between rewettability and durability
- Superior water holding capability results in a more flexible, adhesive film
- Lower total vibration (better protection) at higher frequency (improved adhesion/creping)

## Operating Window

Navigator Programs perform across a wide variety of operating environments.
